

## COMPLETELY SEPARABLE DRUM - FTS

**Description**      **The FTS drum does not have top and bottom reinforcement rings fixed to the body of the drum. All parts are easily separable with simple manual operations. Therefore, the different materials involved (paper, steel, MDF) can be disposed of by the end user with a few simple steps.**

<b>Advantages</b>	Significant reduction in time and cost of separation and disposal at the end of life of the packaging Lightness, resistance, low cost, and possibility of customisation The total opening lid allows rapid filling and emptying
<b>Products</b>	Solid powder Grains Flakes Food
<b>Components</b>	Kraftliner paper body Non-toxic vegetable glue Bottom and lid made of MDF, stainless steel, paper or plastic Closing ring with sealable galvanized steel lever
<b>Sizes</b>	From 25 to 500 litres
